Scheduled Maintenance Notice

October 23, 2025

The Pharmacy Point of Sale system will be unavailable due to scheduled maintenance starting November 1, 2025, at 10:00 p.m. and ending on November 2, 2025, at 4:00 a.m.

We apologize for any inconvenience this may cause and appreciate your understanding

Provider Record NPI Updates

October 17, 2025

DPHHS is collaborating with BSW, SDMI, CFC and PAS providers to add NPI numbers to provider records. Emails are being sent to the program distribution lists with the information below. The file of records being reviewed is posted. The spreadsheet on file is now available. Going forward, DPHHS will update at least once a week as we get the information back from providers.

Who this effort affects:

Per the presentation for the team number rollout (see: February 2025 Team Number Rollout), Providers were to procure NPIs on the NPPES website, if they did not already have one. To facilitate collection, we have uploaded a file with all providers indicating those where we are missing their NPI. Column E on the spreadsheet on file will be yellow for those who are missing an NPI.

What to do:

If you see that there is information missing for your tax ID, then please send an email to HHSMPATHTraining@mt.gov with your Provider ID, Name and the NPI number you would like associated. When all provider IDs under a single tax ID have the NPIs provided, the provider IDs will be added to a batch to have the NPI added to the record(s).

When to do this by:

Please respond by September 15, 2025. Once the NPI is in Optum for all records, the provider is requested to add the additional locations or settings not already enrolled (example Self-Direct or Agency Based if one is on file and the other is not and both are relevant). Thank you for your consideration. Reach out to HHSMPATHTraining@mt.gov should you have any questions.

CMS Issues Fax Scam Alert

June 30, 2025

The Centers for Medicare and Medicaid Services (CMS) is warning providers about a rise in phishing scams involving fraudulent fax requests for medical records. These fax scams are typically unexpected, threatening, and require an urgent response.

If you receive a request and suspect it may be a scam:

- Do not respond directly through any links, phone numbers, or fax numbers in the request.
- Independently verify the sender.
- Report any suspicious requests immediately to the Surveillance Utilization Review Section (SURS) at HHSOIGSURS@mt.gov or Provider Relations Helpdesk at 800-624-3958.

While these scams can come in any form, CMS has shared a couple of examples.

Claims System Modernization - New Montana Healthcare Programs Claims System Coming in 2027

April 4, 2025

Announcements History

These documents are available on the [Montana Healthcare Programs Provider Website](#)

The Department of Public Health and Human Services is pleased to announce we have contracted with Gainwell Technologies to implement a new system for processing and paying Montana healthcare claims. The claims project kicked off in October 2024, with plans to roll out the new system in 2027. For more information and to subscribe to receive updates to your inbox, please visit Claims Modernization on the DPHHS website. .

Update to Member Eligibility Faxback Requests

April 3, 2025

Montana Healthcare Programs has updated the eligibility Faxback requests process. The fax line for direct requests (800) 714-0075 is no longer active. The new Faxback process is now integrated with the IVR system, (800) 624-3958. To request the eligibility Faxback, select the option for eligibility then enter the required provider and member information. The option to receive a Faxback will be made available after the eligibility information is announced.

If there are further questions on this new process, please contact Provider Relations MTPRHelpdesk@conduent.com or call the support line.

EFT Authorization Agreement Updated

February 7, 2025

The Electronic Funds Transfer (EFT) Authorization Agreement form has been revised to provide clarification for providers on the address type accepted. Providers must include the street address, city, state and ZIP+4. A post office box address is not accepted.

In addition, a new option has been added in the Reason for Submission section. If you are submitting the EFT as part of your revalidation process, choose the Providing Current Information option and in the Reason for providing field, indicate Revalidation. Complete the form as applicable.

The revised EFT Authorization Agreement is posted on the Forms page of the Montana Healthcare Programs Provider Information website under the Forms D – F tab.

Error in Pharmacy Pricing File

January 30, 2025

The department has identified an error in the pharmacy pricing file, and thousands of incorrect rates were loaded. The department is actively working to get the correct rates loaded into the system and anticipates rates will be corrected within a week. Once corrected, the department will process a mass adjustment of all impacted claims and correct the claims. No action is required by the pharmacy.

January 10, 2025

Information on the Montana Healthcare Programs Provider Information website under Resources by Provider Type on the Select Your Provider Type page has been updated.

Changes affecting Substance Use Disorders providers are as follows:

1. Under Select your Provider Type, the resource titled Chemical Dependency has been deleted.
2. A new entry has been added for Substance Use Disorders.
3. When you click on the Substance Use Disorders provider type link, you are taken to the same resource page that had been titled Chemical Dependency and is now updated to Substance Use Disorders.

Revalidation Requirements Deadline

December 23, 2024

Montana Medicaid providers are being urged by the Department of Public Health and Human Services (DPHHS) to update their enrollment information by Dec. 31, 2024 to ensure uninterrupted payment reimbursement.

DPHHS officials state this is a federally required step, known as the provider revalidation process, in order for providers to continue participating in Montana Medicaid.

This deadline affects over 1,400 Medicaid providers across the state who have yet to update their information. To date, over 8,400 providers have successfully completed the process.

Providers who fail to complete the necessary updates by the Dec. 31 deadline risk having their payments suspended.

Providers can review their current revalidation status on the Medicaid provider website and the Provider Services Portal. The revalidation process takes approximately 50 minutes to complete.

Montana Medicaid providers are required to verify and update their enrollment information every five years to remain eligible for participation in Montana Medicaid. Note that this process is unrelated to the recent PHE redetermination process that verified the eligibility of approximately 330,000 Montanans enrolled in Medicaid at the time.

Providers can check their revalidation status by reviewing the current provider revalidation list on the Medicaid provider website or by logging into the services portal.

The revalidation menu option will be active. Providers should ensure all necessary steps are completed and the revalidation is in a submitted status.

For more information about the provider revalidation process visit [MedicaidProvider.mt.gov](#) to access resources by provider type, provider notices, and Claim Jumper articles. The Revalidation User Guide is also available.

In addition, DPHHS has added bi-weekly revalidation seminars with dates posted online. For technical issues

Claims Processing Delays

November 9, 2023

The Department is working with Conduent to address claims processing delays due to staffing shortages. Department staff are actively evaluating common edits that cause claims to suspend and making procedural and system changes to streamline claims processing. Changes to the 40-year-old claims system are challenging; however, as opportunities for automation are identified, they are prioritized for development and implementation. Additionally, Conduent has added numerous staff resources to expedite claims processing. Finally, the State Medicaid Director, Mike Randol, meets with Conduent executive leadership weekly to ensure continued progress toward resolving the claims processing delays.

Claims Payment Discrepancy Update

September 15, 2023

On September 13, 2023, the Department of Public Health and Human Services (DPHHS) identified a claims payment issue with the September 11, 2023, payment cycle. The cause of this issue was that the payment file for August 14, 2023, was re-run and providers received their August 14, 2023 payments again in error instead of the payments they should have received on September 11, 2023.

To correct this issue, this weekend, the Department, will reverse the EFT payments or cancel the warrants that providers received in error, and process the proper payments due to providers for September 11, 2023.

The remittance advices providers received on September 11, 2023, will match the corrected payments providers will receive on or before Tuesday September 19, 2023. Providers should use the remittance advices received on September 11, 2023, for reconciliation purposes. The only item that will not match is the warrant number for the corrected payment.

Providers will receive their payments as usual for September 18, 2023.

Impacted providers will also receive a notification to their email on file. The Department sincerely apologizes for this issue and has taken immediate steps to prevent this issue from re-occurring in the future.

Provider Revalidation for Providers Who Utilized Expedited Enrollment During the PHE

May 22, 2023

On April 17, 2023, Montana Healthcare Programs began sending revalidation notices to providers who utilized the expedited enrollment process following the CMS 1135 waiver policy during the Public Health Emergency. These providers must submit a revalidation by July 10, 2023. Failure to complete the revalidation by this date can lead to disenrollment from participation in Montana Healthcare Programs.

Providers who received the revalidation letter will need to: (1) Log into the [MPATH Provider Services Portal](#) to complete the revalidation process and upload supporting documentation. (2) Select the radio button on the workbench next to the current enrollment. (3) Select the Revalidation button from the left-hand menu to begin the process.

Complete the provider revalidation by July 10, 2023.

Please contact Provider Relations via email at MTPRhelpdesk@conduent.com or call Provider Relations at (800) 624-3958 if you have questions or concerns.

New Provider Services Portal for Enrollment, Maintenance and Claims Entry available 12/13/2021.

November 30, 2021

Important:

There will be a temporary freeze on new provider enrollments beginning 12/4/2021 through 12/13/2021. Additionally, emailed provider file update requests will no longer be accepted as of 12/10/2021, however, faxed provider file updates will continue to be processed with the focus on moving all updates to the new provider services module in 2022.

Montana Healthcare Programs is excited to introduce a new Provider Services Module. Beginning December 13, 2021, you will notice a change to the online enrollment links. All providers seeking to enroll with Montana Healthcare Programs will be directed to the new MPATH online application offering a more efficient way to enroll, update information and easily submit claims!

Provider Enrollment Portal - The enrollment portal is a self-service online system that will allow providers to enroll as a Montana Healthcare Programs provider.

The portal enables secure and efficient processing of the enrollment application. Significant improvements include:

- ***Ability to upload supporting documents*** - No need to fax or email any portion of the application or supporting documentation.
- ***Faster application processing*** - The application process is consolidated to one online submission. The portal will guide applicants through the requirements by section. Application forms have required fields with help information icons on every page.
- ***Online user guide support*** - Detailed user guide is available to support all features of the provider service module.

Provider Maintenance Features - Once a provider is active with the portal, the process of updating information is very efficient. Updating the license, address and other relevant information can be done online without the need to fax or email information. Key features:

- ***Upload support for multiple document types*** - including .doc, .pdf, jpg and more.
- ***All updates can be submitted and managed online via the secure portal*** - Simply utilize the update option in the portal.

Announcements History

These documents are available on the [Montana Healthcare Programs Provider Website](#)

MPATH Claims Entry Solution - The claims entry solution is an online tool allowing providers to manually enter claims. Available options include:

- ***Claim form templates*** - The system allows users to create and save templates for common claim submissions. No need to start from scratch every time.
- ***Diagnosis and Procedure code look up*** - The system has code look up features to assist with entering correct information.
- ***Ability to submit multiple claim types*** - including Professional, Facility and Dental claims.
- ***Great alternative to WinASAP5010*** - The claims entry solution is a free, simple to use and providers can enter claims without converting and uploading files.
- ***Electronic Claim Adjustments*** - Paper adjustment forms are no longer required. The provider service module allows for online claim adjustments.

The new provider services module will be an improvement to the enrollment and maintenance experience which may include time and cost savings.

For further questions, please contact Provider Relations via [email: MTEnrollment@conduent.com](mailto:MTEnrollment@conduent.com). Additional information will be posted once it becomes available.

Provider Service Module training dates are now available, please see the training page <https://medicaidprovider.mt.gov/Training> for details.

American Rescue Plan Act of 2021

Revised November 4, 2021

This announcement was originally posted August 20, 2021.

Montana Home and Community Services Spending Narrative and Plan Submitted September 28, 2021.

The American Rescue Plan Act of 2021 (ARPA) provides a unique opportunity to improve home and community-based service (HCBS) provision for Montanan's enrolled in the Montana Medicaid program.

Section 9817 of the ARPA provides states with a one year 10-percentage point increase to the federal medical assistance percentage (FMAP) for certain Medicaid expenditures that meet the ARPA definition of HCBS.

States are then able to invest the saved state funding in eligible activities that enhance, expand, or strengthen HCBS under the Medicaid program. The investment of saved state dollars can further be matched with federal Medicaid funds dramatically increasing the impact for HCBS recipients and providers.

For more information regarding the American Rescue Plan Act of 2021 and the CMS response to the original submission, please refer to:
