SURS Revelations

When No Code Fits: How to Correctly Use Unlisted and Unspecified Codes

Recently, the Surveillance Utilization Review Section (SURS) has discovered that many providers might not fully understand how to effectively use and document unlisted, unspecified, and not otherwise classified (NOC) codes.

When billing or coding, you must select the precise code for the service being performed. Unspecified codes, often ending in 99, are subject to varying acceptance depending on state and federal rules. It's vital to provide detailed documentation including the procedure description, technique, body area treated, and rationale for detailed coding.

The provider must include all necessary information for processing the unlisted or NOC procedure when submitting the claim. Failure to do so may result in the claim being delayed, not processed, or not processed appropriately.

It's crucial to maintain thorough documentation, particularly concerning billing procedures for unlisted codes. There are guidelines within the coding books as well as, you can refer to the American Academy of Professional Coders (AAPC) for guidance on proper billing practices.

Remember: **"If it isn't documented the service can't be substantiated!"**

Providers Needed: Big Sky Waiver Home and Vehicle Modification Services

Did you know Big Sky Waiver providers can help make the homes or vehicles of members more accessible?

One way the Montana Big Sky Waiver (BSW) supports member independence is through home and vehicle modifications. Home modifications could include an improvement in accessibility such as an outside ramp to safely enter their home. Vehicle modifications could be adding hand controls for driving with limited arm mobility, or incorporating wheelchair ramps, among other alterations.

There are very few providers of home and vehicle modification services in Montana. If you are or know of any providers who offer these services, please spread the word (and refer to the enrollment details below). These services are vital to allowing members with limited mobility to live independently and travel safely.

What other types of services does BSW provide?

Health and Therapy

- Nursing, Physical, Occupational,
- Speech, and Respiratory Therapies
- Dietetic and Nutritional Services
- Pain and Symptom Management
- Specialized Medical Equipment and Supplies

Daily Living and Personal Care

- Personal Assistance and Attendants
- Homemaker and Chore Services
- Adult Day Health
- Adult Foster Care
- Assisted Living
- Case Management

Community and Social Support

- Community Adult Group Homes
- Supported Employment
- Community Transition Services

Safety and Accessibility

- Emergency Response Systems

Family and Caregiver Support

- Respite Care
- Family Training and Support
- Financial Management and Self-Direction

(continued on page 3)

How can I become a BSW Provider?

If you are not yet a BSW provider, we would be happy to help you join the team! To begin the enrollment process, access the Provider Services Portal. From the Home page of the [Montana Healthcare Programs Provider Information](#) website click the blue Provider Services Portal button near the top of the screen and follow the prompts.

Federal Affiliations Requirement in the Claims Modernization System

When the MES Claims System rolls out in 2027, there will be a federal affiliation requirement for Montana Healthcare Programs providers.

Provider affiliations are a connection that a Medicaid provider, or its owners and managers, has with another entity or individual. They allow a provider to be selected as a rendering, ordering, prescribing, or referring provider on a claim in the MES Provider Services Module claim portal.

Individual provider records can create an update and request affiliations to organizations. Organizations use the Manage Affiliation tile to add individual providers. Detailed instructions are in the Provider Maintenance Update User Guide.

This is different than *linking* a provider. Linking allows a provider to see the pay-to organization NPI in the MES Provider Services Portal on their workbench and claims drop-down.

Watch upcoming newsletter issues for more information.

Revalidation – How to Stay Compliant

Per [42 CFR 424.515 \[ecfr.gov\]](https://www.ecfr.gov) providers enrolled with Medicaid are required to revalidate their enrollment every five years.

If you don't complete a revalidation within the designated time frame you could have your payments suspended until the revalidation is completed and could even be subject to a repayment of the funds you received.

When it's time for your revalidation you should receive a letter indicating the steps and time frame allotted to complete your revalidation.

Please do not ignore the notices for revalidation.
