Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC)

Vaccines and the administration of vaccines are only eligible for separate reimbursement to an FQHC or RHC when provided to a member enrolled in HMK. Members with HMK-Plus are not eligible for separate reimbursement because providers receive the vaccines free of charge through the VFC Program.

If vaccines are provided to an HMK member during a qualifying visit with a core FQHC or RHC provider, the vaccine administration will bundle into the Prospective Payment System (PPS) payment and the vaccines will be separately reimbursed. Vaccine-only encounters are not eligible for reimbursement at the PPS rate.

The vaccines should be billed with revenue code 636 and the appropriate Current Procedural Terminology (CPT) code.
