Licensing Requirements for Out-of-State Mental Health Practitioners Practicing via Telehealth in Montana

This provider notice serves as a reminder to enrolling and revalidating out-of-state mental health practitioners of the Montana Department of Labor and Industry Board of Behavioral Health's licensing requirements for providing mental health services via telehealth to clients located in Montana.

Per the Montana Board of Behavioral Health:

Telehealth/telepractice is a method of delivery of services and not a specific type of license or practice. To practice under the scope of the professions licensed under this board you must be licensed in the state of Montana (e.g., where the services are occurring) or be exempt from licensure in Montana.

Click on the below links to view the statutory exemptions from licensure for different license types. Note that laws concerning telepractice/telehealth vary from jurisdiction to jurisdiction so you should also check with the regulatory entity in the jurisdiction where you are licensed with regard to its laws.
