End of Public Health Emergency (PHE)

DDP 0208 Comprehensive Waiver, Applied Behavior Analysis, and Targeted Case Management Updates

On February 9, 2023, the State of Montana received notice from the Secretary of the U.S. Department of Health and Human Services (HHS) that the COVID-19 Public Health Emergency (PHE) would be extended for 90 days. Additionally, the Secretary noted that based on current trends regarding COVID-19 HHS is planning for this to be the final renewal and that the PHE will end on May 11, 2023.

Throughout the PHE many programmatic flexibilities were implemented at both the federal and state level. Many PHE flexibilities and policies have already been made permanent. With input from stakeholders, DPHHS reviewed each flexibility and policy enabled by the PHE declaration to determine whether it should remain in place after the PHE ends.
